EMPLOYMENT HISTORY

Full Stack Developer

Winnddeal, Dubai, UAE | Mar 2023 - Present

- Worked on various e-commerce projects, including the development of dynamic, user-friendly web applications.
- Developed and maintained accounting features and systems for e-commerce platforms and companies.
- Maintained and updated websites for multiple clients, ensuring functionality, performance, and security.
- Gained hands-on experience in deployment processes, ensuring smooth transitions from development to production environments.
- Utilized technologies such as Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, and MongoDB.

PROJECTS

TL E-commerce Application

Link - www.tlonline.shop

- Created dynamic product listings, product detail pages, and an efficient admin panel for product and user management.
- Developed a comprehensive e-commerce application using Next.js for the frontend and Node.js for the backend.
- Implemented various features such as suspense loading and cache management.
- Stored images in Google Drive and integrated them into the backend for efficient image management. • Implemented Google Map Autocomplete feature for address input on the frontend.
- Utilized Tailwind CSS for styling to ensure a responsive and visually appealing user interface.

PREVIOUS EDUCATION

Self-taught

Web Development (Ongoing)

- Learned various web development technologies and frameworks.
- Built RESTful APIs using Node.js and Express.js.
- Managed version control with Git and GitHub.

St. Aloysius College (Mangalore)

B.Voc in Software Development 2021 - 2023

- Completed the 2nd year and focused on self-learning.
- Attended classes on programming, data structures, and networking

Abyzplants E-commerce Application

Link - www.abyzplants.com

- Utilized Next.js, TypeScript, Tailwind CSS, Node.js, Express, MongoDB, and Stripe integration. • Created dynamic product listings, product detail pages, and an efficient admin panel for product and user management.
- Implemented an easy order management system in the admin panel.
- Enabled user registration, profile management, order tracking, order status notifications, and automated order invoice printing.
- Facilitated secure transactions with COD and online payments via Stripe.
